## *Newsletter Autumn 2020*

**Welcome** to the 2020 Autumn issue of the newsletter.

### **WORKING BEES TO RESUME ... ..**

We have been advised by the Shire that it is proposed to re-commence working bees from 1 July 2020. This is good news indeed. We are lucky that the Shire's Bushland Management Teams have been able to continue work along the McCrae foreshore while the COVID19 restrictions have been in place, but there will be enough for us to do. So write the 5<sup>th</sup> July 2020 in your diary as our first working bee back – 10.00am at the Rotunda as usual. We look forward to seeing you there. In the meantime stay safe and healthy.

See back page for lifting of some COVID19 restrictions in the Shire.

### **PRESIDENT'S REPORT**

#### **PRESIDENT'S REPORT MCCRAE HOMESTEAD COASTAL GROUP AGM 4<sup>th</sup> December 2019**

Welcome to the 22<sup>nd</sup> AGM of our Association, marking 22 years that we have been working to restore the McCrae foreshore from damage done over many years of camping in what is now, thanks to Parks Victoria's vision over 20 years ago, a Conservation Zone. Once again we have had an active year of works on the foreshore, with several grant applications being successful, keeping us and Naturelinks busy. At the start of the year in preparation for planting later in the year we spread several truck loads of mulch mainly east of the beach car park. In May we planted the first of over 500 plants, with our last planting in October.

All plantings were east of the Rotunda and included Banksias, She oaks, Boobialla, and grasses including poas, microlinas, and lomandras all indigenous to the area. We watered the plants and installed Plant guards, most of which have remained- although there have been several plants and tree guards pulled out.

At our last AGM I reported on the eight old groynes installed between 1988-1991 in a failed attempt to save a Lifesaving Clubhouse built in the 1960s between the bay trail and the sand line.

October 1991

Derelict McCrae Lifesaving Clubhouse

#### **Office Bearers:**

Secretary: Margaret Wilson 5986 4159  
President: Len Warfe 5987 2537  
Treasurer: Jenny Warfe 5987 1583  
PO Box 29, McCrae Vic 3938 email: [mhcg@mccraecoastalgroup.org.au](mailto:mhcg@mccraecoastalgroup.org.au) web: [www.mccraecoastalgroup.org.au](http://www.mccraecoastalgroup.org.au)

By the late 1980s the LSC was under wave attack, and eventually collapsed into the sea despite the groynes and massive rock boulders dumped on the shoreline to “save” the building and car park. The clubhouse remains were removed in 1995 but the useless groynes remained a hazard and eyesore. In the early 2000s, the then Rosebud Foreshore Committee and its successor Parks Victoria, advised the groynes were a failed experiment so would not be maintained and would eventually be removed. Parks Victoria, by then, was the manager of the entire Rosebud Foreshore Reserve. As the groynes decayed, the beach has naturally repaired itself. Since 2005 it has remained largely in dynamic equilibrium throughout the seasons.

By 2018 there was a 27 metre wide stable beach at McCrae. See below images from 2017-2018

Wide McCrae beach looking west towards old groynes  
18<sup>th</sup> November 2018

McCrae beach - 1<sup>st</sup> February 2018 before new groynes  
Mid tide

In August 2018 PPCC wrote to DELWP, pointing out the useless state of the groynes and suggesting it was time to finally remove them. So it was a shock when DELWP put up a sign in late 2018 advising that works would be starting to replace the old groynes with taller and longer ones – without any prior advice to PPCC or MHCG. Work started a few days after the sign went up and the 6 new groynes were completed by Feb/March 2019. In my opinion they have greatly diminished the visual amenity of the beach and shallows.

McCrae beach with new groynes 31<sup>st</sup> March 2019 mid tide

It’s no longer possible to walk unimpeded along the shoreline as the groynes are tall enough that walkers have to hurdle them, or trudge up the beach to get around the landward end of them, which could also be causing damage from increased foot traffic around the end of the groyne. A consultants report since obtained from DELWP conceded that the old groynes were not contributing to the wide and stable condition of the beach for over 20 years, however inexplicably the report attempted to justify spending over \$200,000 to make the beach 3 metres wider.

As far as I can tell, the beach doesn’t look any wider, and may be narrower in some spots as groynes naturally accumulate sand on one side and deplete it on the other.

The following 2 slides are taken near the most westerly groyne and show the difference in beach width on either side of it.

**Office Bearers:**

	President:	Len Warfe	5987 2537
Secretary:	Margaret Wilson	5986 4159	Treasurer: Jenny Warfe 5987 1583
PO Box 29, McCrae Vic 3938 email: <a href="mailto:mhcg@mccraecoastalgroup.org.au">mhcg@mccraecoastalgroup.org.au</a> web: <a href="http://www.mccraecoastalgroup.org.au">www.mccraecoastalgroup.org.au</a>			

Most westerly groyne has build up of sand on western side and depletion on eastern side  
1<sup>st</sup> December 2019

Looking west past most westerly groyne to wide beach  
1<sup>st</sup> December 2019

The sand may be deeper in some parts of the beach (i.e. some groynes don't appear to be quite as tall as they first did) – but a deeper beach was not the stated aim of the project..... DELWP was wanting - and the consultant's report predicted - a wider beach, not a deeper beach.

Looking east from most westerly groyne to narrower beach.  
1<sup>st</sup> December 2019

Narrow beach, big groyne 12<sup>th</sup> July 2019 mid tide

The new groynes have also been ineffectual in saving the beach car park from wave attack, as winter storms have caused erosion of the dune immediately in front of it Eventually a load of rocks was dumped in front of the car park to save the bitumen from being undermined – although we are not sure by whom. Likewise the piecemeal attempt at planting a couple of She oaks and grasses near the rocks.

Looking East. Despite new groynes, more rocks arrive to protect McCrae beach car park 12<sup>th</sup> July 2019 - Low tide

Looking east just east of car park. 3<sup>rd</sup> December 2019. Remains of old groyne exposed for first time. No beach to east of car park now.

A piece of an old groyne from 1990 has just re-emerged presumably due to lack of sand arriving from the west as would normally occur. That sand is now trapped on a very wide beach in front of the Yacht Club.

**Office Bearers:**

	President:	Len Warfe	5987 2537

PO Box 29, McCrae Vic 3938 email: <a href="mailto:mhcg@mccraecoastalgroup.org.au">mhcg@mccraecoastalgroup.org.au</a> web: <a href="http://www.mccraecoastalgroup.org.au">www.mccraecoastalgroup.org.au</a>				

### Grants, Working bees and other activities

During 2019, works have been funded by a number of grants which Margaret and Jenny have successfully submitted. Successful grants include: Melbourne Water; Coast Care, a small PPWCMA Admin Support Grant and a larger Port Phillip Bay Fund grant which we are administering and sharing with 2 other groups – Friends of Rosebud Beach and Friends of Chinaman’s Creek.

Our Membership is currently 20, down from 26 last year, and attendance numbers at working bees has dropped slightly, with the highest being 12 on two days and the lowest 5 on three days. This year we have worked 22 days for a total of 340 hours, compared with 388 hours (21 days) last year.

Nature Links continues to oversee our working bees under the meticulous guidance of Danielle Suffern and her team – especially including Emily Sharp. Danielle is also a wonderful support to us when we prepare grant applications, preparing plant lists and quotes for estimated work hours, liaising with the Shire, Melbourne Water etc.

Once again during the year Dee and Barry Robinson have provided post working bee lunch for us on 19 occasions at their home. As per last year’s report, I have added 40 hours to our working bee hours for Dee’s catering efforts, to make a total of 380 hours of volunteer work to support McCrae foreshore.

Dee and Barry also hosted our Xmas party and Danielle’s 40<sup>th</sup> on the 14<sup>th</sup> April. So- on behalf of the club, I thank you both once again for the many years of support and companionship.

### Eyrie Creek

As well as their successful grant applications; for the last couple of years Margaret and Jenny have been applying for funds to restore the banks of Eyrie Creek.

31<sup>st</sup> August 2019

5<sup>th</sup> September 2019

A prominent eyesore on our foreshore - delivering sediments and pollutants to the Bay. Funding sorely needed to rehabilitate it.

Melbourne Water declined our Eyrie Creek application last year and is still considering our second try with them for this year’s round of funding. This year we emphasised to Melbourne Water the creek’s diminished water quality delivering pollutants to the Bay detracting from the successful works in Coburn Creek funded by them.

We also made a submission to the CBA earlier in the year when it announced the closure of its Dromana Branch. Following complaints by Len and Jenny, the Branch Manager offered to accept requests for funding of community projects. We submitted a detailed submission for the restoration of Eyrie Creek as it is such a prominent feature of the foreshore when approaching and leaving Dromana. We were unsuccessful.

Following a recent suggestion from Hannah Brown – the Volunteers’ Co-coordinator for the Shire - we recently submitted an application to the 2020-2021 MPS Budget process for funding the sorely needed restoration of the Eyrie Creek section of foreshore. We made the point that the Shire spent a lot of money restoring the landward side of Eyrie Creek and adjacent ‘Eyrie Steps’ public walkway but once the creek crosses under Pt. Nepean Rd and emerges onto the foreshore it becomes a stagnant weed infested eyesore. We are yet to hear the outcome of that submission.

### Office Bearers:

	President:	Len Warfe	5987 2537		
Secretary:	Margaret Wilson	5986 4159	Treasurer:	Jenny Warfe	5987 1583
PO Box 29, McCrae Vic 3938 email: <a href="mailto:mhcg@mccraecoastalgroup.org.au">mhcg@mccraecoastalgroup.org.au</a> web: <a href="http://www.mccraecoastalgroup.org.au">www.mccraecoastalgroup.org.au</a>					

**Len Evans**

To mark the passing of Len Evans earlier this year, I want to place on record our appreciation of his commitment and dedication to the restoration of the McCrae foreshore. We all know how tirelessly Len worked whether at the working bees or the driving force behind our success with grants over so many years. He will be missed.

**Committee**

Margaret Wilson as our secretary, with her usual efficiency, manages newsletter production, letter writing, pamphlets, our website and the numerous responsibilities of a secretary. This year she and Jenny have worked together on grant applications. Thank you Margaret.

You will remember at last year’s meeting Jenny took on the Treasurer’s role and has been very thankful for the assistance Margaret has given her during the year.

Margaret and Jenny are both very capable and have handled our affairs with great efficiency.

Thanks also to Graeme Rose and Barry and Dee for their contributions to the committee’s deliberations.

As always thank you to all the committee for your support, and I thank all the membership for your continued dedication to our special piece of the coastline.

**LEN WARFE**

\*\*\*\*...\*\*\*\*...\*\*\*\*...\*\*\*\*...\*\*\*\*...\*\*\*\*

**WEBSITE**

Through the auspices of Jenny Warfe, we are fortunate to have been accepted by *Mornington Peninsula Websites* to host our website without cost. That is a tremendous boost for us, saving up to \$260 per annum. We thank *Mornington Peninsula Websites* for their generous support.

**UPDATES**

**Melbourne Water Grant 2020/2021**

Work on Coburn Creek has commenced. These funds also include preliminary work on Eyrie Creek and that will commence soon.

**CoastCare Victoria Community Grants 2019/2020**

Work under this funding will be completed by the end of June.

**CoastCare Victoria Community Grants 2020/2022**

We have submitted an application for a two year project expanding on the work mentioned above, and establishing three new reveg beds in the vicinity of Eyrie Creek complementing the work carried out under the Melbourne Water Grant.

**Port Phillip Bay Fund Round 3 Community Grants**

It is expected that work on this project carried out under the auspices of the Shire Bushland Management Team, will be completed by the end of June.

**Port Phillip Westernport VLG Grant 2019/2020**

We were successful in attracting a support grant of \$500 under this scheme. These monies will cover our insurance and compliance costs for 2020.

**Bendigo Community Bank**

Recently we applied to the Bendigo Community Bank for funds to support our administrative costs and were successful in being awarded \$1,000. These funds will help defray internet costs, insurance and compliance fees into 2021 and some general secretarial expenses.

**MPS 20/21 Budget Allocation**

We are awaiting the passing of the MPS 20/21 Budget by Councillors in July to confirm whether the proposed allocation of funds for substantial works around Eyrie Creek and along the Bay Trail will be confirmed.

**RAINFALL IN MCCRAE**

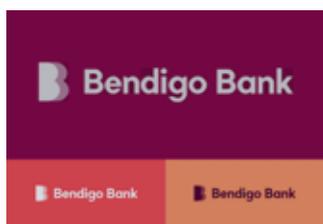

Year	Annual
2010	934.50 mm
2011	843.00 mm
2012	959.00 mm
2013	854.50 mm
2014	652.55 mm
2015	631.50 mm
2016	773.50 mm
2017	673.00 mm
2018	591.00 mm <small>Lowest since 2006</small>
2019	621.50 mm
2020	335.00 mm <small>to 26 May</small>

**Office Bearers:**

Secretary: Margaret Wilson 5986 4159      President: Len Warfe 5987 2537  
 Treasurer: Jenny Warfe 5987 1583

## FUNDING SUPPORT

Thank you to our supporters for providing funds or in-kind support to enable MHCG to continue the vital work we do on the McCrae foreshore:

**Mornington Peninsula Websites**

\*\*\*\* \* \* \* \*

## WORKING BEES

**Working Bees – FROM JULY:** First and second Sunday of the month except January - 10.00am at the Rotunda.  
**Just turn up!**

Volunteers do need to be a member of the group and registered with the Shire, but this can be done on the day. You will be provided with gloves, safety glasses, sun hat, safety vest and tools – and a light lunch to follow.

### Office Bearers:

Secretary: Margaret Wilson 5986 4159

## SOME COVID19 RESTRICTIONS LIFTED

Information received from the Shire:

**From Tuesday 26 May**, playgrounds, skateparks, outdoor gym equipment and park assets such as furniture and BBQs will all progressively re-open for a maximum of 10 people (and then 20 people from 11.59pm. on 31 May).

**From 11.59pm on Sunday 31 May**, these local measures will come into effect:

- Libraries, youth centres and other community facilities may be able to open, if they need to operate and can do so with 20 people in a single area that complies with the social distance rules. (dates & times may vary)
- Men's sheds and arts and crafts classes can resume. (dates & times may vary)
- Entertainment and cultural venues like galleries, museums, drive-in cinemas and historic sites can open. (dates/times may vary)
- Swimming pools can also open with limits of 20 people and additional safety requirements in place. (dates & times may vary)
- Community sporting activities will also be permitted with up to 20 people in undivided spaces, provided the sport is outdoors, non-competition, non-contact, and people are able to play 1.5 metres apart.
- Non-food and drink market stalls can open.
- Overnight stays can resume at private residences as can overnight stays in tourism accommodation.
- Campgrounds and caravan parks can open – communal facilities like kitchens or bathrooms will remain closed. Shire camping season proposed to re-open in October 2020.
- Up to 20 people allowed at weddings – plus the celebrant and couple.
- Up to 50 people allowed at a funeral, in addition to those required to conduct the ceremony.
- Up to 20 people will be allowed at other religious ceremonies, in addition to those required to perform the service.
- All outdoor gatherings can also increase to 20 people.
- You can have a total of 20 people in your home. For a family of four, that means 16 visitors.
- For those able to work from home, you must keep working from home – at least until the end of June

**ENJOY THE NEW FREEDOMS BUT DON'T FORGET TO MAINTAIN SOCIAL DISTANCING AND KEEP UP YOUR HAND HYGIENE.**
